As authors, we would like to inform you that our paper, titled "An Adult Case of Mumps Brainstem Meningoencephalitis with a Past Measles-Mumps-Rubella (MMR) Vaccination", which was published in The Korean Journal of Internal Medicine (2006, Volume 21, Page 154-157) was unintentionally duplicated in the Journal of Korean Neurological Association (2006, Volume 24, Page 82-84) under the

title of "A Case of Adults Mumps Meningoencephalitis with a Past Measles-Mumps-Rubella (MMR) Vaccination". We are sincerely sorry for this oversight, which occurred as a result of misunderstanding with the exact translation of 'duplication' at the time. We assure you that this will not happen again.
